

Product Overview

Nationwide Anti-Climb system is one of our on-ground temporary hoarding systems. It is ideal for providing site safety and security. Visual graphics can also be fitted if required.

It offers temporary fencing for various sectors and is easily mobile and affordable.

Anti-Climb panels are also used for tree protection as a cost-effective way to safely secure the perimeter for trees in your area.

Features

- **Mobile**
Lightweight and transferable to adapt to the requirements.
- **Gates**
Temporary Vehicle and Pedestrian Gates are available up to 7m.
- **Extras**
Backstays & 50kg Yellow Blocks are available to make this system more robust.

Suitable For

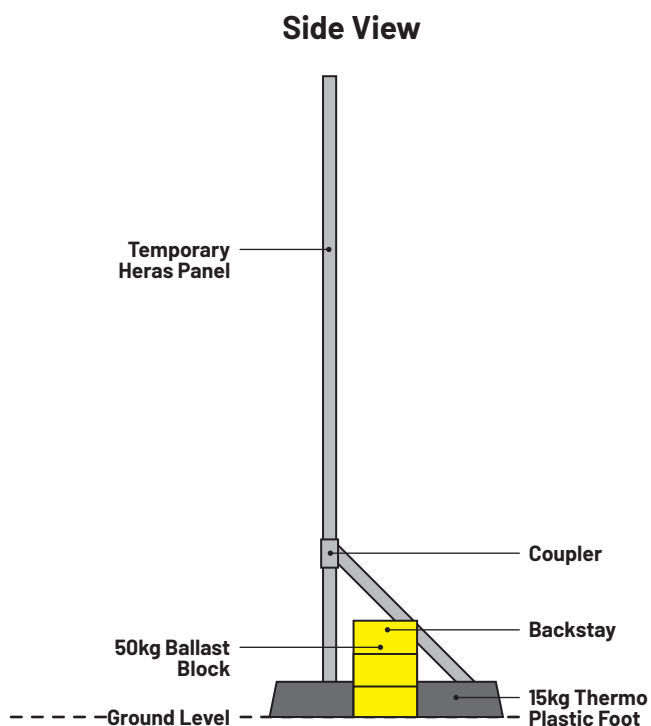

- **Car Parks**
- **Crowd Control**
- **Outdoor Events**
